

## Vi TECHNOLOGY Picks up Its Third Award for the Sigma Review Software

**Saint-Egrève, France, April 2015** – Vi TECHNOLOGY, a leading provider of inspection solutions for PCB assembly, announces that it has been awarded a 2015 EM Asia Innovation Award in the category of Test & Measurement / Inspection Systems – SPI for its Sigma Review Software. The award was presented to the company during an April 22, 2015 ceremony at the Shanghai World Expo Exhibition & Convention Center during NEPCON China.

Sigma Review is Vi TECHNOLOGY's new web-based multi-step, multi-line review software. By displaying & correlating both SPI and AOI data and images, including reference images, Sigma Review opens the way to defect root cause analysis.

In addition, predefined IPC defect categories offer a simple and robust classification environment. Based on the classified defects, Sigma Review can suggest corrective actions for the operator.

Established in 2006, the EM Asia Innovation Awards program strives to recognize and celebrate excellence in the Asian electronics industry, inspiring companies to achieve the highest standards and push the industry forward.

### About Vi TECHNOLOGY

Vi TECHNOLOGY is a global designer, manufacturer and supplier of a wide range of innovative inspection equipment and software solutions for PCB assembly. Vi TECHNOLOGY serves very demanding market segments including telecoms, consumer, computer, automotive, infrastructure, industrial and medical.
