

AL Automatic Solder feed station · 230V

The AL automatic solder feed station is the ideal solution for extensive soldering application, and any soldering application that requires one or two free hands.

This station automates the soldering process by feeding soldering wire, using all advantages of JBC soldering stations.

With the AL-2A automatic solder feed station it is possible to:

- Select length and speed of wire feeding
- Select work cycle: continuous or step-by-step
- Capture and control of work hours and solder cycles

Control unit

AL-2A Solder feed station

Basic specifications

Nominal power: 75 W.
 Peak power: 140 W
 Sleep mode: 10 W
 Hibernation mode: 4 W
 Temperature regulation: 90 - 450 °C.
 Uses soldering wire diameters 0.5 to 1.5 mm, with appropriate wire guide accessories
 Capacity of solder reels up to 2 Kg.
 Weight: 3,2 kg.

Included Control unit AL-2A
 Complete handle AL250-A
 Cartridge C250403
 Stand AL-SB
 CL9885 Tip Cleaning Stand
 Tubes set and guides, for: wires
 ø 0,9 - 1 mm: 0002401

AL 2500 station accessories

Tubes set and guides for:

wires ø 0,4 - 0,5 mm P/N.: 0002399
 wires ø 0,6 - 0,8 mm P/N.: 0002402
 wires ø 0,9 - 1,0 mm P/N.: 0002401
 wires ø 1,0 - 1,5 mm P/N.: 0002843
