

## COMPACT line Soldering and desoldering stations

This product range features 4 stations, each designed work to with one dedicated tool. The corresponding stands are incorporated in the same housing as the control unit for easy handling.

**Cartridge extractor:** An easily accesible location of the extractor for rapid cartridge change.

**Adjustable stand:** Fast and simple adjustment of the angle of the stand without requiring additional tools.

**Cable collector:** Maintains working area free of cable.

**Brass wool housing:** Contains metal wool and minimises splashing of solder particles.

Each station works with its designated tool.

The intelligent sleep and hibernation functions, which help to extend tip life and to save energy, are combined with extremely fast temperature recovery unrivalled in the market.

**Tip wiper: Tapping and wiping:** Very soft and temperature resistant receptacle allows tapping and wiping of the tip to eliminate excess solder.

**Sponge:** For final cleaning.

### OPTIONAL

**Metal brushes** for more aggressive cleaning.

**Retinner** chemical cleaning system.

## COMPACT line Soldering and desoldering stations

### CD Soldering station · 230V

The CD soldering control units feature large back-lit graphic displays that show important information at a glance. Any changes to the original setting can be easily made via menu on the display. All settings can be locked by PIN.

#### Basic specifications

Nominal power: 75W  
Peak power: 140W  
Temperature range: 90-450° C

### CD-2BB

General electronics jobs.

**Included** Control unit CD  
Handpiece T245-A  
Cartridges C245-903 & C245-741

### CD-2SB

For high precision solder joints.

**Included** Control unit CD  
Handpiece T210-A  
Cartridges C210-001 & C210-008
