

COMPACT line Soldering and desoldering stations

This product range features 4 stations, each designed work to with one dedicated tool. The corresponding stands are incorporated in the same housing as the control unit for easy handling.

Cartridge extractor: An easily accesible location of the extractor for rapid cartridge change.

Adjustable stand: Fast and simple adjustment of the angle of the stand without requiring additional tools.

Cable collector: Maintains working area free of cable.

Brass wool housing: Contains metal wool and minimises splashing of solder particles.

Each station works with its designated tool.

The intelligent sleep and hibernation functions, which help to extend tip life and to save energy, are combined with extremely fast temperature recovery unrivalled in the market.

Tip wiper: Tapping and wiping: Very soft and temperature resistant receptacle allows tapping and wiping of the tip to eliminate excess solder.

Sponge: For final cleaning.

OPTIONAL

Metal brushes for more aggressive cleaning.

Retinner chemical cleaning system.

COMPACT line Soldering and desoldering stations

CP-2B Micro tweezers Station · 230V

For soldering and desoldering SMD components with Micro-Tweezers.

Basic specifications

Nominal power: 2 x 20W
Peak power: 2 x 40W
Temperature range: 90-450° C

Included Control unit CP
PA120-A micro hot tweezers
2 X C120-002 cartridge.
